

K-12 school districts are maximizing the use of their buildings and generating revenue through efficient facility management and scheduling with ScheduleSense™. An easy to use, web-based application, ScheduleSense facilitates the scheduling of space, people and equipment with comprehensive scheduling, billing, calendar and reporting features.

Features	Benefits
<ul style="list-style-type: none"> <li>• Easy to use, single screen interface</li> <li>• Email notifications</li> <li>• Interactive graphics</li> <li>• Continuous conflict checking</li> <li>• Manages playing fields and playgrounds</li> <li>• Fully integrated with Schedule Star™ and FacilityTree™</li> <li>• Dynamic and flexible calendars</li> <li>• Extensive reporting capabilities</li> <li>• Flexible customer billing</li> <li>• Schedule people and equipment</li> <li>• No software installation required</li> <li>• Stadium seating scheduling option</li> </ul>	<ul style="list-style-type: none"> <li>• Short learning curve</li> <li>• Integrated communication capabilities</li> <li>• Visualization of floor plans and facilities</li> <li>• No double booking</li> <li>• Revenue generation from outdoor spaces</li> <li>• Integration with work order and building automation systems</li> <li>• School-wide communication</li> <li>• Easy management oversight</li> <li>• Meet community needs appropriately</li> <li>• Easy coordination of resources</li> <li>• Simple administration</li> <li>• Additional revenue opportunities</li> </ul>

Seamless integration with Schedule Star and FacilityTree allows ScheduleSense to provide access to athletic calendars and generate work orders, giving school districts complete control of their space, time and resources.

“We selected ScheduleSense because it provides facility scheduling functionality specific to a K-12 school district,” says Dr. Peter Blanco, Facilities Rental Office Manager for Aurora. “The experience that GraphicVision has working with other school districts is important to us because we realize that the software application alone does not guarantee success in this type of project.”

“ScheduleSense has provided us with consistent performance for more than seven years now,” says Lela Perkins, former Director of Community Use at Adams 12 School District. “GraphicVision gives us excellent support and they continue to evolve ScheduleSmart as our needs have grown. We are very pleased with ScheduleSmart and GraphicVision.”

## Englewood Schools A Step Ahead

“After searching for years for a scheduling program, I finally found one that is user friendly for school districts in ScheduleSense,” says Ilene Brandon, Interim OMT Director at Englewood Schools. “We have limited support resources, so having ScheduleSense hosted by GraphicVision has made it easy for us to utilize the application.”

“Denver Public Schools (DPS) has used ScheduleSense since 1999. Our office manages 128 schools and generates over 100,000 schedules a year with ScheduleSense” says Susan Johns, Community Use Coordinator for DPS. “We appreciate the control that ScheduleSense gives us over the system and the flexibility of the application to adapt to our way of doing business. The support provided by GraphicVision is excellent.”
